HIGH INTENSITY LED STROBE LIGHTS

## AQ4-MkII

AQ-4 MkII, the high quality multipurpose marking and distress personal strobe light, is designed for use in extreme rough maritime and onshore environments. AQ-4 MkII is equipped with a high intensity LED that by a two-way switch activates either a flash or an emergency fixed light. AQ-4 MkII is waterproof to 500 meters depth.

Typical applications are diving and fire-fighting as location aid, military-personnel and/or equipment marking and aid, personnel/crew on-board any type of vessels, search and rescue personnel, parachuting and kayaking, back-pack travelers and hunters, among other activities.

AQ-4 MkII is sold in a box with 5 units and includes velcro straps.

The AQ-4 MkII uses 1 x Type C Battery. **Battery is not included in the pack.**

The AQ-4 MkII comes, as a standard, in a yellow housing but is also available in Military Green or Navy Blue housing.
